Report

Workshop on "How to Get a Job in Govt. & in Multinational Company"

On 10th March 2025, a highly anticipated workshop titled "How to Get a Job in Govt. & in Multinational Company" was successfully conducted at Shri Shivaji Sabhagruh 2, Shri Shivaji College Parbhani. The session was led by Arun Shahane, a seasoned professional with extensive experience as an ex-Operation Manager at renowned companies like TCS, OLA, AVIVA UK Insurance, Ocwen Financial Corporation, and Tech Mahindra. The workshop attracted an overwhelming response, with a total of 90 students in attendance, eager to gain insights into securing promising careers in government and multinational corporations.

Objective of the Workshop:

The primary aim of the workshop was to equip students with essential knowledge and strategies to successfully navigate the job market. It specifically addressed the challenges faced by students from tier-2 and tier-3 cities in securing high-paying jobs and offered effective solutions to overcome these hurdles. The session covered key aspects such as:

- Understanding the Training & Placement Process
- Developing the Top Three Skills Essential for Job Acquisition
- Addressing the Common Struggles of Students in Smaller Cities

The workshop commenced at 11:00 am, during which Arun Shahane shared his extensive expertise in recruitment and corporate expectations. He emphasized the significance of skill development, confidence-building, and networking as crucial factors in securing a well-paying job. The students actively participated in discussions, eagerly engaging with the speaker and seeking advice on career-related matters.

One of the key takeaways from the workshop was the realization that technical expertise alone is not sufficient to secure a job in a competitive environment. Soft skills, adaptability, and communication proficiency play an equally crucial role in ensuring success in professional settings. The students were given real-life examples from the speaker's experiences working with leading corporations, which provided them with a practical perspective on industry expectations.

Student Engagement and Feedback:

The interactive nature of the session encouraged students to ask questions and share their personal challenges when applying for jobs. Many students expressed concerns about the lack of exposure to multinational companies and limited access to job opportunities in smaller cities. The workshop provided them with practical solutions such as enhancing their LinkedIn

profiles, leveraging online job portals, participating in internships, and building strong resumes to bridge these gaps.

The students also appreciated the insights shared on interview preparation, resume writing techniques, and strategies to build a strong professional network. The presence of logos from prominent companies like TCS, OLA, AVIVA UK Insurance, Ocwen Financial Corporation, and Tech Mahindra on the workshop banner reinforced the credibility of the session and motivated students to aim for careers in multinational firms.
